## SEAL TECH – GUY COTTEN YACHTING PROGRAM

### **PERTH SMOCK**

XS – XL.....**2.015 kn**

XXL.....**2.214 kn**

*THE PERTH SMOCK made of Dremtech +, the rough weather smock! Made waterproof by 2 highly comfortable collars: a very high collar for the extreme conditions of the Open Sea and an extra-supple waterproof collar that adapts well to the neck. Large outer collar lined with fleece, covering the ears, extended by a flap and chin piece. Hood. Adjustable to the sides and rear. The highly technical Dremtech + fabric. Neoprene waterproof belt, adjustable at the waist. 1 front pocket with flap and side openings. Really waterproof wrists, thanks to the adjustable neoprene cuffs inside and their self-grip fastening. Reflective strips on the shoulders, back and chest.*

#### **Fabric description**

*Dremtech+ is a high-tech breathable fabric, which is comfortable and tough. Comprising 3+2 layers: 3 for breathability with hydrophile lamination and microporous coating, 2 for the inside integrated lining and the outer water repellent treated fabric.*

---

### **SOLENT SMOCK**

XS – XL.....**1.446 kn**

XXL.....**1.590 kn**

*Very light technical smock made of Sportpro breathable fabric. Neoprene flap on front and self-grip adjustment tabs on back. Neoprene seal at waist and cuffs.*

*Very light technical smock made of Sportpro breathable fabric. Large fleece collar fastened with self-grip strap. Removable fluorescent hood in the collar. Neoprene flap on front and self-grip adjustment tabs on back. Reflective bands on the top of the hood and on the cargo pocket. Front pocket with self-grip storm flap. 2 side hand warmer pockets protected by a flap. Neoprene seal at waist and cuffs. Self-grip adjustment tabs. Mesh lining.*

#### **Fabric description**

*The Sportpro Fabric is "Waterproof", "Windproof" and "Highly breathable". The interior membrane is extremely resistant, since it maintains a water resistance of above 10,000 mm in the water column test, even after several washes. It has an excellent water resistance to breathable ratio. 100% polyamide - polyurethane coated. Total weight 160 g/m<sup>2</sup>.*

## TROPHEE JACKET

XS – XL.....**2.388 kn**

XXL.....**2.626 kn**

### **Breathable Dremtech+ offshore jacket**

You will appreciate the very high fleece collar of this offshore jacket. There is no need to prove Dremtech's strength and technical characteristics anymore. The wrists are really waterproof thanks to adjustable neoprene inside cuffs and a self-grip fastening tab on the outside of the cuff. The hood is fluorescent yellow with a reflective strip and a tab for attaching an identification light. Reflective strips on the shoulders and a patch on the tab. Large-toothed zip fastener with 2 sliders. 2 waterproof front pockets, 2 hand warmers. Inside pocket. Shirt tail-style hem at back of garment for better protection.

#### **Fabric description**

Dremtech+ is a high-tech breathable fabric, which is comfortable and tough. Comprising 3+2 layers: 3 for breathability with hydrophile lamination and micro-porous coating, 2 for the inside integrated lining and the outer water repellent treated fabric.

## RACING JACKET

XS – XL.....**2.046 kn**

XXL.....**2.251 kn**

### **Dremtech+ breathable jacket ideal for racing. AVAILABLE SPRING 2015**

Very large fleece collar for this short jacket, ideal for racing. Designed for Gwénolé Gahinet, who was looking for a no fuss jacket with which to sail the Safran-Guy Cotten boat. Slightly tailored cut. Really waterproof wrists thanks to adjustable neoprene inside cuffs and a self-grip fastening tab on the outside of the cuff. Yellow fluorescent hood with reflective strip. Reflective strips on the shoulders and a patch on the tab. Large-toothed zip fastener with 2 sliders. 2 waterproof front pockets. Shirt tail-style hem at back of garment for better protection.

#### **Fabric description**

Dremtech+ is a high-tech breathable fabric, which is comfortable and tough. Comprising 3+2 layers: 3 for breathability with hydrophile lamination and micro-porous coating, 2 for the inside integrated lining and the outer water repellent treated fabric.

## **MAGELLAN**

*XS – XL.....1.850 kn*

*XXL.....2.030 kn*

**Flotation jacket lined with closed-cell PVC foam and padding in the sleeves. EN 393. 50 Newtons.**

*Flotation jacket lined with closed-cell PVC foam and padding in the sleeves. Large fleece collar with removable fluorescent hood in the collar. CE EN 471 microparticle fluorescent bands circling chest, bottom of garment and arms. Double adjustment at cuffs by self-grip tabs. Passage for full harness. 2 hand warmer + 2 front pockets. 1 VHF pocket.*

### **Fabric description**

*Polyamide coated fabric with taped seams for maximum waterproofing. High-performing durable and breathable. Suitable for all outdoor activities.*

## **TRANSAT TROUSERS**

*XS – XL.....2.195 kn*

*XXL.....2.420 kn*

**Transat trousers are very popular with several racers equipped with "Guy Cotten". Very high-tech 3+2 layer Dremtech+ fabric.**

*Transat trousers are very popular with several racers equipped with "Guy Cotten". They appreciate the knee reinforcements extending to the bottom of the leg. Harness at the belt. Very high-tech 3+2 layer Dremtech + fabric. 2 fleece-lined chest pockets with flap. Large seat reinforcement. 1 thigh pocket. 1 fastening tab for knife sheath or a multipurpose tool. Adjustable at the back.*

### **Fabric description**

*Dremtech+ is a high-tech breathable fabric, which is comfortable and tough. Comprising 3+2 layers: 3 for breathability with hydrophile lamination and microporous coating, 2 for the inside integrated lining and the outer water repellent treated fabric.*
